

Policy Workshop on Neuroinformatics
in the Netherlands and the International Perspective
Friday, January 30th, 2004, The Hague

Roadmap Neuroinformatics in The Netherlands

Steps towards the implementation of a Netherlands Neuroinformatics Program

- 1) Establish a National Neuroinformatics Steering Committee
- 2) Establish the Netherlands representation in the INCF (Governing Board)
- 3) Build a Netherlands neuroinformatics community of researchers and research groups
- 4) Organize scientific meetings in Neuroinformatics
- 5) Build a collaborative scientific neuroinformatics research program.
- 6) Organize a Neuroinformatics education and training program
- 7) Build a Netherlands Neuroinformatics WEBSITE, closely linked to the international NI WEBSites

The details of these actions will be prepared by the Neuroinformatics steering committee (including J. van Pelt, C.C.A.M. Gielen, W. Wadman, G. van Ark) on the basis of discussions and opinions during the workshop, and presented to the participants for comments.
